

Color aiming rings with lead window

i Aiming rings with lead window are not included in the set and can be ordered separately if required.

For radiation exposure reduction in accordance with the test position [05F05a] of the expert's directive. Complies with the legal requirements laid down under DIN 6868-151.

Art. no. 2130100031	Color aiming ring with lead window 3 x 4 for anterior vertical
Art. no. 2130100032	Color aiming ring with lead window 3 x 4 for bitewing horizontal
Art. no. 2130100033	Color aiming ring with lead window 2 x 3 for anterior vertical
Art. no. 2130100034	Color aiming ring with lead window 2 x 3 for bitewing horizontal
Art. no. 2130100035	Color aiming ring with lead window 3 x 4 for posterior horizontal
Art. no. 2130100036	Color aiming ring with lead window 3 x 4 for Endo horizontal
Art. no. 2130100037	Color aiming ring with lead window 2 x 3 for posterior horizontal
Art. no. 2130100038	Color aiming ring with lead window 2 x 3 for Endo vertical

Image Plate and Film Holder System Set Color

Features:

- Stabilisation of the image plate / X-ray film and protection from deformation
- Exact and reproducible positioning of the image plate and/or X-ray film
- Universally applicable for all conventional X-ray units (e.g. the VistaIntra DC from Dürr Dental)
- Distortion-free reproduction fidelity, as the recording medium and central ray can be exactly positioned at right angles to the tooth axis
- Simple handling
- Aiming ring with lead window provides significantly improved ray protection (optional)
- Colour coding permits simple assignment of the individual components to the respective application sets

► The individual parts of the Image Plate and Film Holder System Set Color are compatible with the previous version

► Indicator arms, bite blocks and aiming rings can be thermally disinfected and sterilised

Image Plate and Film Holder System Set Color

Complete range for the production of front tooth, side tooth and bitewing exposures

Image plate holders from Dürr Dental offer optimum protection of the image plate due to deburred and rounded edges. The special staged design of the right-angle technique Color aiming rings enable simple and safe visualisation of the X-ray tube. There are also holders available for all areas of application. These support the production of exact X-ray images. The colour coding of the various image plate holders enables simple and error-free handling.

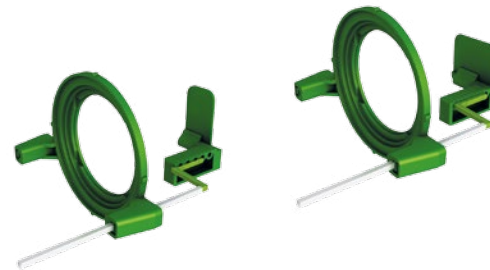

Complete range contents:

- Color indicator arm anterior (qty. 1)
- Color indicator arm posterior (qty. 2)
- Color indicator arm bitewing (qty. 1)
- Color aiming ring anterior (qty. 1)
- Color aiming ring posterior (qty. 2)
- Color aiming ring bitewing (qty. 1)
- Color bite blocks anterior (qty. 8)
- Color bite blocks posterior (qty. 8)
- Color bitewing bite blocks 3 x 4 (qty. 2)
- Color bitewing bite block 2.7 x 5.4 (qty. 1)
- Color bitewing bite block 2 x 3 (qty. 1)

Art. no. 2130100015

Image Plate and Film Holder System Set Color Plate and Endo Upgrade Set

Special range for frequent use of the right angle / parallel technique in endodontics

Endo upgrade set includes:

- Endo Color indicator arm (qty. 1)
- Endo Color bite block left anterior (qty. 1)
- Endo Color bite block left posterior (qty. 1)
- Endo Color bite block right anterior (qty. 1)
- Endo Color bite block right posterior (qty. 1)
- Endo Color aiming ring (qty. 1)

Art. no. 2130100014

Image Plate and Film Holder System Set Color individual parts

For exposures in the anterior region

Color indicator arm anterior (blue), qty. 1
Art. no. **2130100016**

Color aiming ring anterior (blue), qty. 1
Art. no. **2130100027**

Color bite block anterior (blue) qty. 1
Art. no. **2130100020**

Exposures in the posterior region

Color indicator arm posterior (yellow), qty. 1
Art. no. **2130100017**

Color aiming ring posterior (yellow), qty. 1
Art. no. **2130100029**

Color bitewing posterior (yellow), qty. 1
Art. no. **2130100021**

Bitewing exposures

Color indicator arm bitewing (orange) qty. 1
Art. no. **2130100018**

Color aiming ring bitewing (orange) qty. 1
Art. no. **2130100028**

Color bitewing bite blocks (orange)

for 3 x 4 films
Qty. 8 art. no. **2130100022**

for 2.7 x 5.4 films
Qty. 8, art. no. **2130100023**

for 2 x 3 films
Qty. 8 art. no. **2130100024**

Endo measuring images

Color indicator arm Endo (green), qty. 1
Art. no. **2130190019**

Endo Color aiming ring (green), qty. 1.
Art. no. **2130100030**

Endo anterior, qty. 2 items
R/upper or L/lower and L/upper or R/lower
Art. no. **2130100025**

Endo posterior, qty. 2 items
R/upper or L/lower and L/upper or R/lower
Art. no. **2130100026**
