

# MICRO-TOUCH<sup>®</sup> Nitrile (White)

## White nitrile examination glove with textured fingertips

MICRO-TOUCH<sup>®</sup> Nitrile examination gloves provide reliable protection in a lightweight design for enhanced tactility and dexterity. The polymer inner coating reduces friction for easier donning and doffing. Approved for use with chemotherapy drugs.

### KEY FEATURES AND BENEFITS:

- Protects from latex Type 1 allergies
- 150-count packaging reduces waste
- Textured fingertips for secure handling of medical instruments
- Polymer inner coated for easy donning
- Tested for use with chemotherapy drugs\*

\*See product packaging or contact Ansell Customer Service for specific chemotherapy drug permeation times and recommendations

**WARNING:** No glove completely protects against all chemicals. Users should test the suitability of this product against the specific chemicals and environment where used.

### Recommended For

- Tested for use with chemotherapy drugs
- Standard, moderate risk examination procedures
- Environmentally friendly facilities
- Protection from Type I latex allergy in HCW's or patients

### FEATURED TECHNOLOGIES

## MICRO-TOUCH<sup>®</sup> Everyday, Everywhere Protection

MICRO-TOUCH<sup>®</sup> premium medical examination gloves are scientifically designed to complement every need of medical professionals. Sophisticated design features include Ansell ergonomic technologies that ensure comfort during extended procedures, wet grip innovations that prevent harmful mishandling, and micro-thin films for maximum sensitivity. Caregivers who are fully prepared and comfortably protected by versatile MICRO-TOUCH styles have the peace of mind to focus on what matters most: the health and protection of themselves and their patients.
