

V4 WEDGE™

The V4 Wedge™ saves time by facilitating excellent matrix retention and adaptation, with the added benefit of transparency for peace-of-mind light-curing, especially with bulk fill and deep cavities.

V4 - THE SOLUTION IS CLEAR

- Transparency provides a cure-through option
- Suitable for all Class II cases, whether or not the cure-through option is used
- Notches enhance flexibility for outstanding matrix adaptation and retention
- Facilitates a superb matrix seal on the gingival margin
- Four sizes cater for every embrasure scenario
- Gentle on the papilla

V4 WEDGE SMALL (CLEAR)
100 PACK REORDER CODE: 403324

MEET THE REST OF THE V4 SYSTEM™

V4 MOLAR AND PREMOLAR RINGS

- Suitable for all Class II cases
- NiTi spring for optimal tooth separation
- Transparent tines for a cure-through option
- Ring grips even where there is minimal tooth structure
- V-shaped tines accommodate the wedge
- Autoclavable more than 1200 times
- Easier to clean than other rings

CLEARMETAL MATRICES

- Great anatomical accuracy
- "Micro-windows" provide a cure-through option without leaving an imprint on the composite
- Transparent but with the malleability of metal
- Matrix hugs the tooth for extra stability
- Matrix wings won't get in the way during ring placement
- Non-stick for easy removal
